Dear Ms Westra,

What a wonderful asset you are to our community! Your knowledge of and dedication to your occupation are so evident. Pine Elementary feels fortunate to have benefited from your expertise in the rehabilitation of wildlife. The students and staff alike were so very impressed with the birds you brought and the information you gave to them.

We appreciate your time and efforts. I feel the students learned alot about wildlife as well as developed a greater appreciation for its protection and conservation. We wish you well on your future endeavors.

Sincerely,

Kaye Lowe, Principal
